A WHOLE LOT OF HELPING GOING ON.

These past weeks have been real charitable, toward others in and outside the club.

The club brought Halloween Trunk-or-Treat to kids; a show-n-shine to US vets; helped rehab Waikiki waters; and served meals to a hungry public. Photo stories begin on page 5.

Yeah, we all gonna get fat again. Turkey, ham, roast beef - but hey, it's just once a year, right? Bob Kong tells us where can grab good pie - page 9.

FIRST WORD

TERRENCE IWAMOTO, PRESIDENT

Aloha AMSCH Ohana,

It's with great pleasure that I connect with each of you, celebrating our shared passion for the legendary Mustang, Shelbys and Ford automobiles that bring us together.

As we reflect on our recent events, I extend my heartfelt gratitude to every member whose dedication and support have contributed to the incredible success of our community engagements. Your commitment has been the cornerstone of our club's spirit of unity and generosity.

Our recent Shriners Trunk-or-Treat event was truly magical, thanks to the 24 cars adorned with enchanting displays and an abundance of candies. Your creativity and generosity brought joy to the Shriners kids, creating cherished memories for all involved. I also offer special thanks to the Daughters of the Nile, the Shriners members, and the 808Coyotes club for their outstanding participation in support of these essential causes and celebrating Shriners 100th year anniversary.

Moreover, our successful Veterans Day Car Show, featuring over 20 cars from our AMSCH members and the

Nate, of Street Shine Hawai'i and a club partner, is presented with a Certificate of Appreciation.

808Coyotes club, was a poignant tribute to our Veterans. I extend my deepest appreciation to all participants for their commitment and dedication. A special acknowledgment to Darryl Yamane, Larry L Medina and Owen Sonoda for their exceptional efforts in honoring our Veterans on this significant day.

I'm thrilled to announce our upcoming AMSCH Members Christmas Luncheon, scheduled for Sunday, December 3, 2023, at Outback Steakhouse in Waipio @ 11:00 am. Registration forms and detailed information will be promptly emailed to all club

members. This event is open not only to our members but also to their family and friends. We have an exciting lineup planned, including games, raffles, and grab bags. Let's make this our grand finale for the year, filled with laughter, camaraderie, and festive cheer.

As we approach the year's end, let's seize this opportunity to come together once more, celebrating our shared passion and fostering the bonds that make our club

extraordinary.

Looking forward, our calendar is brimming with opportunities for us to unite, share our love for our cars, and continue our support for the community.

Thank you for your unwavering support and dedication to AMSCH. Together, let's make our upcoming Christmas Luncheon a memorable and joyous occasion to conclude the year on a high note.

Mahalo,
Terrence Iwamoto, President

SUBJECT: Your Registration in Ford Performance Club Connect Program is APPROVED

Ford Motor Company hereby grants the Club (named above) approval to use the Trademark(s), listed on Schedule 1 (attached below), in connection with Club Activities as part of the Club's Authorized Name. This approval further includes the use of the Trademark(s) as incorporated into an Authorized Logo, if any, and an Authorized Internet Domain Name, if any, also included on Schedule 1 of this Approval.

Ford trademarks and trade dress serve several important purposes. First seeing a distinctive Ford Logo on a product or associated with an organization or business is an immediate indication of the product, organization or business is authorized by Ford Motor Company. Second, a product bearing a Ford Trademark is an indication the product is of high quality and has passed strict quality control procedures and inspections. Third, placing a Ford trademark on a

product indicates Ford, or an authorized agent is the source of the product, and the product is genuine and not counterfeit.

All Club Merchandise bearing Ford Motor Company trademarks must be purchased from an authorized licensed supplier. Visit www.fordclubmerchandise.com or call (800-926-2891) for all your merchandise needs. (In Europe, contact www.myCybergroup.com).

The Ford Club Merchandise Team is passionate about Ford and are extremely well qualified to meet all of your needs, from concept design through delivery. We are confident you will be pleased with the quality and value of their products and the outstanding services they provide. You are also encouraged to visit www.FordPerformanceClubConnect.com to find information on the latest Ford news and enthusiast events as well as contact info for other registered Ford clubs across the globe. Stay connected with our Enthusiast Communications program online at www.FordPerformance.com/Enthusiasts, via email at ClubHub@Ford.com or by calling the Ford Performance Info Center (800-FORD-788) during regular business hours (EST). You may email any changes or updates to the Club information you provided upon registration for FordPerformanceClubConnect.com to ClubHub@Ford.com.

The right granted to the Club includes the sale or distribution of merchandise (again, merchandise must be purchased from our authorized licensed supplier) and is limited solely to the use of the Authorized Name and/ or Authorized Logo on merchandise distributed to the Club's members or at Club-sponsored events. Ford also grants to the Club approval to use club member vehicles on Club Merchandise and other Club materials. We expect the Club to only use the approved Trademark(s) in a manner and in connection with activities, events, issues and/ or materials that, in Ford's reasonable opinion, promote the celebrity and goodwill of Ford and of the approved Trademark(s). In addition, the Club's materials and website, if any, should promote the image and goodwill of Ford, and the materials and website shall not include any content that is, in Ford's reasonable opinion, defamatory, libelous, obscene, racist, or that is in violation of any law of any jurisdiction. The Club shall not employ unsolicited commercial email, "spam" or electronic "junk mail" to advertise or promote the Club or the Club's activities, products, or services and shall otherwise comply with all applicable laws including laws relating to personal information and privacy. The Club should not advertise for Ford competitors in its materials or website. Finally, the Club should promptly comply with any instructions Ford may provide regarding manner of use and the approved Trademark(s) or any material or websites used by the Club or under the Club's reasonable control in connection with the approved Trademark(s).

Eh, where can get good pies?

Thanksgiving is the time to give thanks for the year. I'm thankful. But there's only one time in the whole year you have pumpkin. My favorite is pumpkin pies. Pumpkin pies are so good and healthy, too.

Pumpkin pies come in the original recipe and various types like chiffon and cheese cake, too. I still prefer the original recipe. Mom used to bake pumpkin pies from scratch. It's a lot of work. I prefer just buying the pies now.

First of all comes the price. Are you willing to pay? Second, are you willing to stand in line? Here's a list of places I bought pies from, or someone bought from there or were advertised.

Costco; Zippy's; Anna Miller's; Liliha Bakery; Alley Restaurant and Grill; Hawaiian Pie Co; Kilani Bakery; Nanding Bakery.

Hope you like my suggestions! // Bob Kong

Shelby Licensing, Inc. was established decades ago to protect the use of Carroll Shelby's name, image and to license brands using the name. The revenue goes to the CHS Trust, a part of Carroll Shelby International, Inc., which includes Shelby American, Inc, and Shelby Licensing, Inc.

Of course, there are numerous Shelby named vehicles (Mustangs and various Cobras and trucks), but there are other products from shirts to hats, from wheels to wine, from luggage to lights and more. See the Shelby American store:

Getting hands dirty to make the Ala Wai clean

Photo: J. DeBone

Members turned out on Saturday, Nov 18, to volunteer for the Genki Ala Wai Project, a long-term endeavour which aims to clean up the Waikiki canal to the point of being fishable and swimmable again.

One way to achieve this is the construction of “Genki Balls,” which are a mixture of soil, rice husks, and a special broth of microbes all mixed to form a mud which are then formed into fist-sized balls which are then dried for a few weeks,

then tossed into the canal. The microbes then consume the water's pollutants.

The activity is held once a quarter. Kids from McKinley High, Hawai'i Baptist Academy, community individuals, along

with Aloha Mustang members turned out for the Saturday session - over 70 people in all. Contact Chris and Jade DeBone to volunteer, both whom introduced this project to the club.

(The following copy is reprinted off saac.com 'About Us' section)

The Shelby American Automobile Club was founded in 1975. It presently has approximately 4,000 members in the U.S. and another 500 around the rest of the world.

When it comes to Cobras and Shelby Mustangs, if we don't know it, it's probably not worth knowing. While SAAC has continually evolved over the past 34 years, its basic reason for existence has not changed since that very first day. The club is dedicated to the preservation, care, history and enjoyment of the World Championship Cars built or inspired by Shelby American.

For most of us, SAAC is more than just a loose organization of owners and enthusiasts who enjoy cars produced and sold by the same manufacturer. The club is part family, part hobby, part historical archive and part refuge from the pressures of the day-to-

day world. These cars provide the opportunity to lose yourself in the past, when high performance, horsepower and speed were unquestioned virtues. They came from a time before the suffocating blanket of government over-regulation, when bragging about zero-to-sixty times and top speeds were the coin of the realm. They start out as simple automotive diversions but quickly become a part of your life. Join us and find out what makes these cars so special.

SAAC has hosted a national convention each summer since 1976. For three days this gathering becomes the center of the universe for these cars and those who own and/or enjoy them. Attendance is between 1000 and 5000

enthusiasts, families and friends. The event is open to the public and is held at a major league race track. In the past, SAAC conventions have been held at Watkins Glen, Laguna Seca Raceway, Mid-Ohio Raceway, Charlotte Motor Speedway, Sears Point International Raceway, Ontario Motor Speedway, Portland International Raceway, Pocono International Raceway, Indianapolis

Raceway Park, Atlanta Motor Speedway, Lime Rock Park, Road America, Michigan International Speedway, California Speedway, Nashville Motorspeedway, Virginia

International Raceway, Miller Motorsports Park and New Jersey Motorsports Park. Convention events traditionally include car shows, high speed open track running, vintage racing, parts swap, technical seminars and evening programs featuring guest speakers who are well known in the motorsports world or who were influential in Shelby American history.

Please feel free to visit our club website (www.saac.com) or meet and chat with members and enthusiasts at our discussion forum (www.saacforum.com).

If you like what you see, and if Cobras, Shelby Mustangs and Ford GT40s hold a special place in your heart, join us today. Ownership is not a requirement - just enthusiasm. Join us today.

Who chooses Moloka'i as a vacation destination?

I did, and with no regrets.

condo or apartment. Plane fare and car rental are on our own.

After searching for over an hour on the Interval website I found a two-bedroom on Moloka'i. I have never been there, so I asked my wife, "Do you want to go to Molokai in Aug for one week?"

with two baths. Two baths?

"Moloka'i? There's nothing there. Dead Horse Island! They probably close up everything at 6 pm-? Maybe?"

And what are we going to do with two bedrooms? Ok, maybe we should ask our niece and nephew if they want to join us.

(Destinations con't p 17)

My wife and I have a timeshare which allows us to choose a condo or apartment anywhere in the world, but the catch is it has to be listed in the Interval Timeshare Database. We are allowed two destinations each year. This only includes the

But there's pristine beaches and beautiful scenery of the former Leper Colony, Kalaupapa . Plus I reserved a two-bedroom condo

DESTINATIONS CON'T

P 17

Good idea, I thought. Maybe my nephew Erick can pay for the car rental and drive us around. Ok, so I sent my niece Michelle a text if they wanted to go to Moloka'i. The best part of the deal was they would have their own bedroom and bath. She said, "Great! I never been to Moloka'i!" Michelle said Erick will pay for the car rental & airfare . Wow, I didn't expect the airfare, too. I just wanted them to pay the car rental. They insisted.

Mokulele is the only carrier to Molokai. You are at

their mercy. The price for round trip was \$400 each person. Oh well, no choice. Plus you have to pay \$20 for each piece of luggage.

Terrible airline. The seats are tight, with very little overhead for luggage and narrow stairways to climb.

next to the tennis courts. One bedroom was the master suite. It had a patio screen door leading to the balcony, king-size bed, and master bath. The other bedroom was a good size room with a queen bed and a separate bathroom. We always had the master bedroom on our own trips. So, we decided to give my niece and nephew the master suite and they were thrilled to get it.

(Destinations con't p 18)

Our two-bedroom condo was on the second floor. Don Ho used to say "the higher the mountain, the cooler the breeze" - haha. He was right. Moloka'i is very hot. But the second floor was cooler

DESTINATIONS CON'T

P 18

Good thing the reservation rep chose the condo next to the tennis courts because my niece and nephew loved to play pickle ball after dinner. Whew, that kept them occupied and from becoming bored.

The condo was right on the beach. Wow, that was convenient. My nephew loves fishing so he brought his fishing gear. I also brought my mini fishing gear. The beach was pristine. It had white sand and crystal blue ocean. The tides were rough but it was manageable walking on the beach. We spent two days fishing but got zonked. No

fish. They just stole our bait. Smart fish.

The condo had a small grocery store but we drove to

Kaunakakai. Locals loved the friendly store, 30 min from our condo. We followed the locals. Prices were pretty high

compared to O'ahu because everything is shipped in, That's OK, when you're on vacation. Haha.

We bought about \$125 worth of supplies for just a few days. Condo time shares are usually one week. Plus, we loved eating out at Moloka'i Burgers. Plate lunches were huge. We loved the Loco Moco and chopped steaks. My nephew loved the burgers at Kanemitsu Bakery and Coffee Shop.

(Destinations con't p 19)

DESTINATIONS CON'T

P 19

Besides eating at Moloka'i, we drove down to the Leper Colony called Kalaupapa National Park. It was the most beautiful place in the world. But it was also sad people were shoved off to Kalaupapa because they had leprosy. Maybe they survived because it was such a beautiful place to endure their hardships.

We also visited Halawa Valley. The roads were really narrow. Good thing our SUV was just the right size for narrow roads. Of course, you have to be a good driver, too, haha. We also saw a lot of wild turkeys from our condo balcony. Plus we saw a lot of deer on the highways. Live

ones and dead ones. We all enjoyed our stay at Moloka'i. So we can't say Moloka'i has nothing to see anymore.

Article Reprint – by Donald Farr

The Mustang GTD was born from the concept of the Mustang GT3 race car. The GTD will be the pinnacle of the Mustang racing lineup that includes the GT4 and GT3, as well as the upcoming Dark Horse R spec racer and more. The GTD name refers to the IMSA “GTD” racing class for cars that are built to FIA GT3 technical regulations. The Mustang GTD was designed and engineered as a collaboration between Ford and race partner Multimatic.

Like the 1965 Shelby GT350s, Mustangs destined for GTD conversion will leave the Ford assembly line as “knock-downs.” Mustang GTD was developed by many of the same people involved with the Mustang race cars and the LeMans-winning Ford GT. It will be the most powerful and quickest road-going Mustang ever. Production numbers haven’t been released, with Ford stating that a “limited” number will be built.

The rumor mill predicts 1,500. The GTD price tag will start at a staggering \$300,000, with options taking the MSRP beyond \$400,000. The GTD is a two-seater because the rear seat area has been removed to save weight and provide space for the rear suspension. The cockpit is finished in premium materials, including Miko suede paired with leather and carbon fiber, while digital displays keep the driver engaged and Recaro seats optimized for track days are complemented by available paddle shifters and rotary dial shifter, all made from retired Lockheed Martin F-22 titanium parts.
